PROJECT IDENTITY

The project is co-funded by the EU Programme Erasmus+

Key Action:

Cooperation for innovation and the exchange of good practices.

Action:

Strategic Partnerships.

Field: Strategic Partnerships for Adult Education.

Main objective:

Development of Innovation.

Erasmus+

ADULATION

Adult Education for Social Change

NEWSLETTER

IO1 Research Study - The political dimension of adult educators work in Cyprus, Belgium, Hungary, and Italy

This output analyses the Political Dimension of Adult Education meaning the integration of political dimension into the adult and community educators' work in the four partner-countries.

The political dimension of the model encompasses the following competences:

1. Linking policies and educational programmes,
2. Integrating political values and beliefs in the context of the adult and community educators' work,
3. Supporting learners in developing political thinking,
4. Applying democracy and human rights principles.

These topics have been analysed in each partner's country and will support the development of educational material for competence development of Adult Educators.

Next Steps

The ADULATION Research Study serves as a baseline for subsequent project activities – supporting the development of relevant educational material for adult educators in the partner countries.

The partners have commenced the developmental work for the ADULATION Handbook - Managing active citizenship initiatives with adult and senior coordinators and volunteers. The ADULATION Handbook will contain good practices and tools focused on human resource management of adult and senior coordinators and volunteers when implementing European Citizens' Initiatives.

Moreover, the ADULATION Training Toolkit is being developed by the partners.

The Toolkit will contain practical tools for Adult & Community Educators to be used to enhance civic engagement in adults and seniors. Innovative education methods will be used to foster interest in the following topics:

1. Human Rights and Climate Change
2. The right of the EU Citizens to Data protection and online privacy
3. Immigration and tolerance to difference.
4. Euroscepticism

The ADULATION Research Study aimed to gain a deeper understanding of the extent to which the political dimension is integrated into the work of adult educators, looking at both contextual and individual factors, at the level of national policies as well as educators' competences.
